

Oregon Plan Monitoring Team *reviews & provides* to Regional Review Teams:

- **Benefit to Oregon Plan-** (1) Addresses identified monitoring/information need, (2) Informs restoration actions, (3) Helps understanding of limiting factors/watershed function; (4) Evaluates habitat or watershed processes; (5) Supports statewide plans, strategies, etc.; & (6) Contributes to identified statewide monitoring needs
 - **Certainty for Success-** (1) Objectives & products answer key monitoring questions; (2) Established techniques, protocols, etc.; (3) Technical expertise, clear monitoring design & appropriate budget; (4) Support from/participation of agency staff; & (5) Successful history with monitoring projects
- 

Regional Review Team *reviews & evaluates*

- ...each project individually based on how well the proposed project meets the criteria in 695-025-0140 (next page)
- 

Regional Review Team *recommends* each project as:

- Do fund
 - Do fund with conditions
 - Do not fund
 - Defer to staff or the Board with an explanation if there is a policy issue or budget issue that needs to be addressed
- 

Regional Review Team *ranks order* all recommended projects based on:

- How well project meets criteria
 - Certainty of success
- 

Staff review recommendations from each technical review team & make a ***statewide funding recommendation to the Board*** based on available resources for the grant offering.

"Watershed Monitoring Project" means a project that identifies conditions in the watershed. It may be for the purpose of gathering baseline data on current conditions, for evaluation of the specific effects of management actions, or for comparing similar watershed components before and after a project.
