

Regional Review Team *review & evaluate*

- ...each project individually based on how well the proposed project meets the criteria in 695-030-0045 (next page)

Regional Review Team *recommend* each project as:

- Do fund
- Do fund with conditions
- Do not fund
- Defer to staff or the Board with an explanation if there is a policy issue or budget issue that needs to be addressed

Regional Review Team *rank order* all recommended projects based on how well project meets criteria in 695-030-0045 (next page)

Staff review recommendations from each technical review team & make a ***statewide funding recommendation to the Board*** based on available resources for the grant offering.

Technical Assistance

Evaluation Criteria
OAR 695-030-0045

Technical Design & Engineering = project feasibility reports, designs, or engineering materials that directly lead to site-specific restoration or acquisition projects within a specified timeframe.

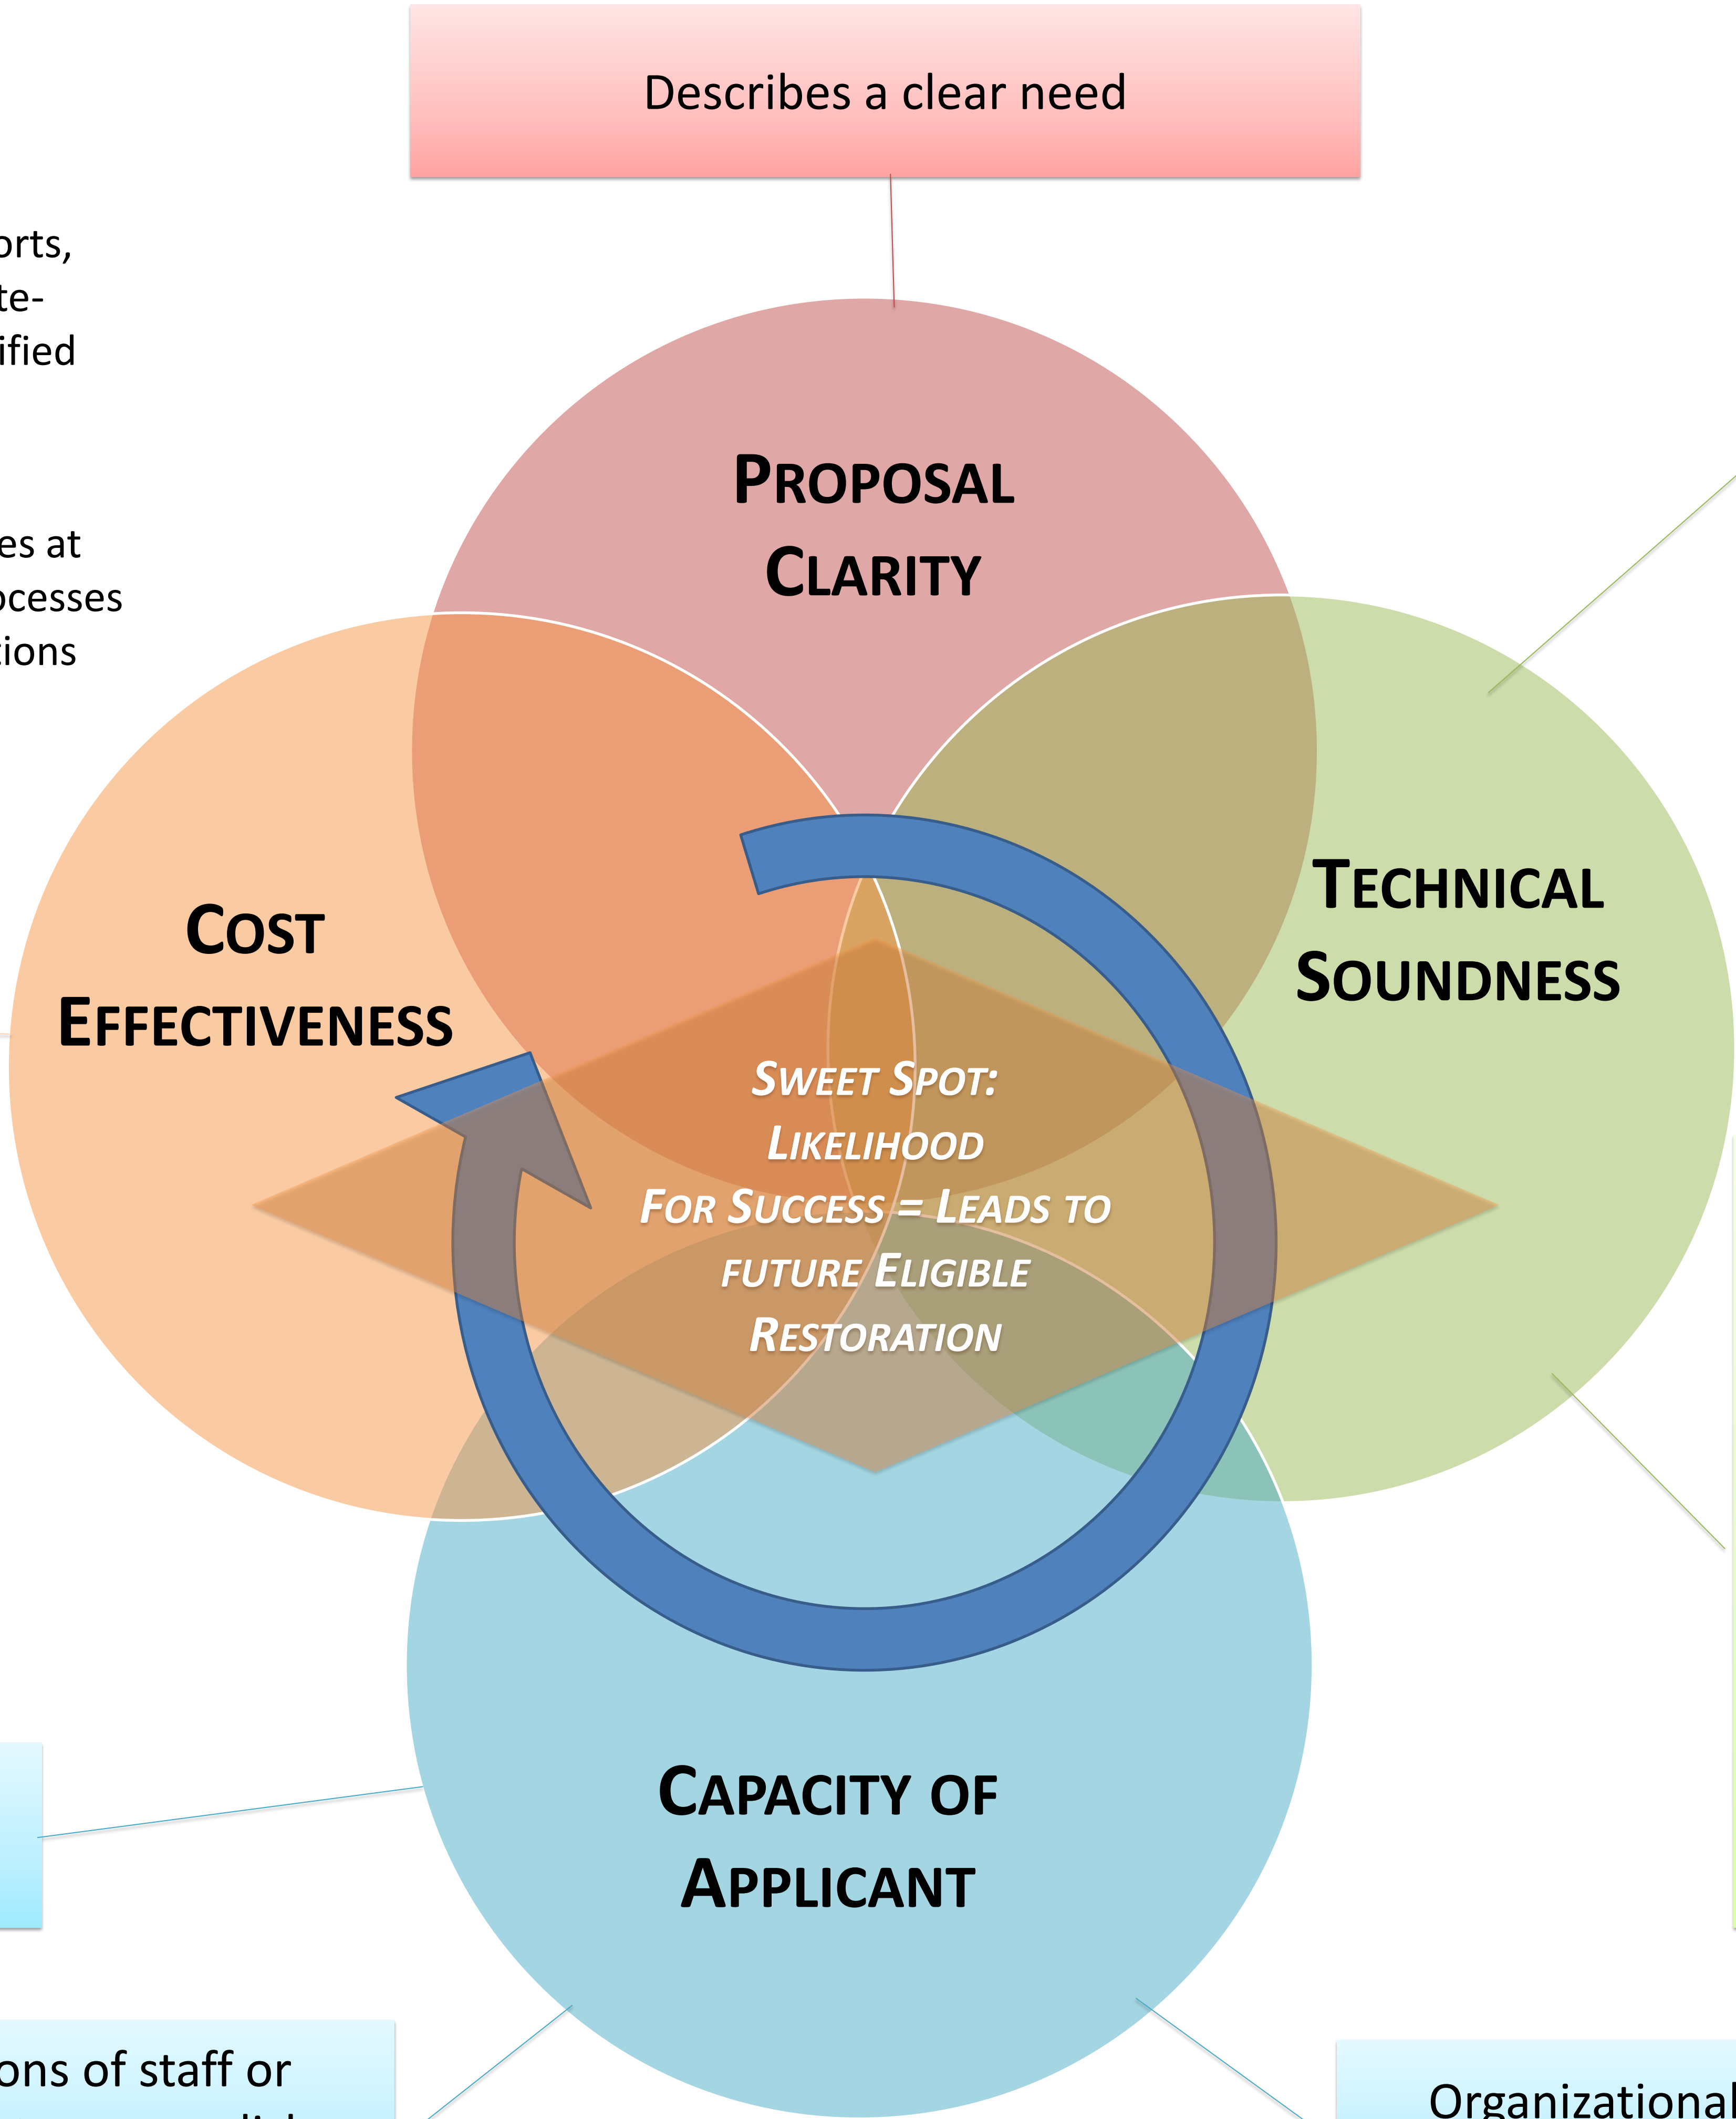

Resource Assessment & Planning = information about existing water quality or habitat conditions and processes at an identified scale, and relates those conditions and processes to actions that will directly lead to desired future conditions within a specified timeframe

Cost aligns with work necessary to accomplish project objectives

Engages appropriate stakeholders

Qualifications of staff or consultants to accomplish proposed activities

Organizational capacity of applicant

- Technical Design & Engineering**
- Addresses limiting factors in existing conservation or recovery plan
 - Describes alternative analysis that demonstrates a range of options were considered
 - Appropriate data will be collected to inform designs
 - Professionally accepted technical or engineering approaches will be used

- Resource Assessment & Planning**
- Scope & scale is feasible, & partners have demonstrated ability in collaborative work at this scale
 - Process by which data will be managed & shared with partners
 - Professionally accepted methods & parameters will be used
